

## **NOTICE OF MOTION**

Whereas the cost of municipal policing is a significant component of our municipal budget,

And whereas policing costs and the agreement / formula are complicated and have not been reviewed in detail with Council and the public in several years,

And whereas there is a growing perception among our citizens that they are not being well served by the local detachment of the OPP,

And whereas, Elliot Lake is the largest municipality in the East Algoma Detachment operational area, but appears to have the fewest members of the force on active duty at any given time,

Therefore, I hereby move that council undertake an open and transparent review of policing in Elliot Lake and determine proper levels of servicing versus costs to the community.
