Re: Sprung/Myrtha Pools Facilities Alternative

Recommendation:

That the Sprung/Myrtha Pools designs are considered as an alternative or interim solution for new recreation facility builds, including the pool and arena, in the community of Elliot Lake.

Background:

Due to the fact that there is no money available from government sources at this time to fund a new Multi-Complex in the City of Elliot Lake, we should be looking at alternative facilities to the new Sports Complex.

As they stand now, both the Ruben-Yli Juuti Centre and the Centennial Arena are outdated and may have a current life-span of only five more years. Instead of pouring more money into these facilities, looking into alternative builds such as Sprung/Myrtha Pools designs can see us through for another 20+ years.

Respectfully Submitted,

Chris Margetts
Parks & Recreation Advisory Committee Chair
