

City of Elliot Lake

MEMO

To: Mayor and Council
From: Dan Gagnon
Date: June 24, 2021
Subject: Arts Hub Updated Design

On Friday June 18th, staff received a new design drawing from Brook McIlroy of the proposed Arts and Culture Centre. This design was updated to include the additional 1,000 square feet in the museum as approved by Council. This submission also includes some of the exterior drawings. As shown, the position of the building has been reversed to ensure better traffic flow on the site.

The firm is also working with their specialized consultants to gather the required information to make the building a Net-Zero carbon standard to qualify for the Green and Inclusive Community Buildings Program Grant. Staff are preparing the grant application and are confident that they will meet the deadline for submission of July 6th.

Respectfully submitted,

Daniel Gagnon
