Re: CIP Application for Property Tax Increment Grant for D.I.G. Excavating and Landscaping

RECOMMENDATION

That the report from the Manager of Economic Development dated August 6, 2024 be received;

And that Council approve the application by Don Isenor of D.I.G. Excavating and Landscaping for the Property Tax Increment Grant under Community Improvement Plan

BACKGROUND

The City's updated Community Improvement Plan (CIP) was approved in 2024. This update included a property tax increment grant to stimulate private investment in the CIP Project Area and to promote the rehabilitation of properties. The effect of this grant would be to phase in any tax increase relating to a revised property assessment resulting from the property improvements.

The grant is calculated based on the increased assessment value after the renovation/construction (as determined by the Municipal Property Assessment Corporation (MPAC)) at the tax rate that was applicable in the year the renovation/construction was completed. The annual grant is based upon changes in property taxes as a result of construction and improvement. The annual grant is not based upon occupancy or changes in occupancy.

The grant represents a percentage of the increase in municipal taxes (excluding education taxes) payable resulting from the improvements. Assessment is fixed from year 1 and the change in assessment is to be determined by MPAC such that the market value portion of increased assessment is not eligible.

The grant will be provided over 4 years, where the tax increase is paid back to the applicant as follows:

- 100% rebate in year 1
- 75% rebate in year 2
- 50% rebate in year 3
- 25% rebate in year 4

The owner is paying based on the full assessed amount in year 5.
